

END CONNECTOR/弹性扣件

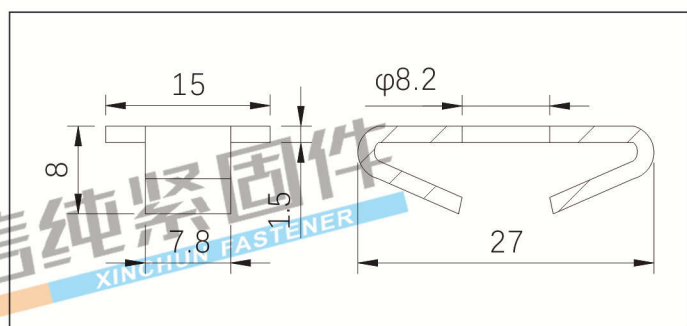

可以将两段型材做90°安装，并且具有防松的效果
Make the two sections of profiles 90° installation, and has the effect of anti-loosening

安装时需搭配内六角螺丝使用，并且型材侧面需预先钻孔，方便扳手套进去拧紧内六角螺栓
It needs to be used with inner hexagon screw, and the profile side needs to be pre-drilled. You can put the wrench in and tighten the hex bolts

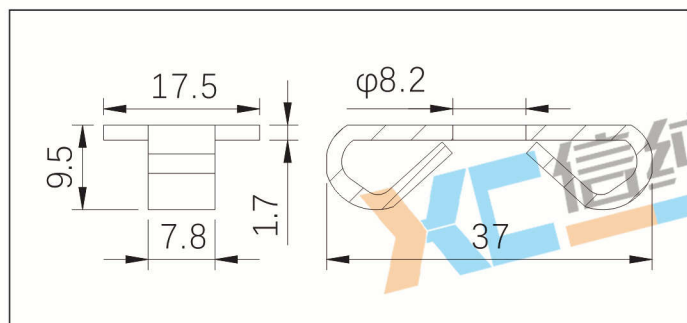

可根据实际情况选用不同规格的内六角螺丝
According to the need to choose different specifications of screw matching use.
